PUBLISHED: Kalambaka 2008²

CONSULTANT TEACHERS: Ioannis Koutsombois & Nicolaos Ziogas

PRODUCED BY: Secondary students of the 1st Junior High School of Kalambaka

DESCRIPTION:

- 1) **WHAT?** It is a book produced in the frames of an environmental educational program included in a pilot program of UNESCO, which has developed an international network of 7000 schools from 171 countries. Through the pages of this book, teachers and students are trying to sensitize readers of the local community so that they familiarize themselves with their history and contribute to the preservation of cultural heritage, as a moral obligation.
- 2) **HOW?** The book is the result of a bibliographical research of essays on history and archaeology and also geology of the Meteora rocks and their monasteries. The text is given in the form of questions that students have searched for their answers in books and internet links. They have been translated in English too, and are accompanied by plenty of beautiful pictures taken by the involved team of students and teachers.

CONTENTS: text in form of answered questions, photographs, useful information about visiting Meteora and extent bibliography.
