

**DIDACTIC GUIDE ON HERITAGE**

**TITLE:** Volcans des 2 mondes

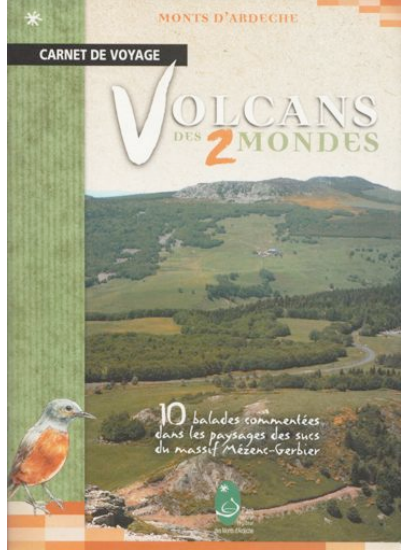

(Volcanoes from the 2 worlds)

**PUBLISHED:** Montpezat-sous-Auzon (2007)

**AUTHOR:** Jean-Noël Borget, Pascal Breitenbach, Alain Brechbuhl

**DESTINED FOR:** Secondary schools and visitors

**DESCRIPTION:**

1) **WHAT?** This booklet was designed after a survey on the heritage linked to the various types of volcanism in the Velay area. It offers 10 itineraries for walks together with all the information on the volcanic nature of the area and its consequences on the actual human and natural environment (landscape, houses, flora, culture, history). It goes with a guide published by the General council that orientates the tourists towards 30 volcanoes to discover.

2) **HOW?** The booklet contains a map, a how to use section and several themes are analysed (origin, age, transformation of the landscape by human activities, tourism, constructing...) It also contains information for visitors who would like to organise a stay in the area.

**CONTENTS:** maps, pictures, photographs and explanations (text and drawings). Some exercises are proposed (drawings, observations, questions).
